GSI GRAIN BIN STAIRS

WWW.GRAINSYSTEMS.COM

We know that keeping your employees, family and yourself safe is your number one priority. GSI's new line of sidewall stairs, roof stairs and platforms are strong, comfortable and easy to climb, allowing you to get to the top quickly and safely.

SIDEWALL STAIRS

- Step height designed to provide comfortable rise/step combination
- Stairs can be wrapped clockwise or counterclockwise
- Common design across all bin diameters and configurations
- Optional inside handrail available for increased safety and ease of climbing

New, 2-piece step design gives you the strength of two steps in one

Pre-rolled, 1.5" round tube, smooth handrails allow you to keep your hand on the handrail at all times

PLATFORMS

GSI offers three options for platform placement with single or double platform options.

High – single or double platform, located just above the eave

Low – single or double platform, located just below the eave

High/Low – combines a low platform in front of manway hole and a high platform to step onto roof (available on bins 60' and smaller - 3 panel roofs only)

ROOF STAIRS

Newly designed roof stairs allow for a safe and easy transition from platform to roof.

- Comes in three sections to cover all roof combinations (3-Step section, 4-Step section, 8-Step section)
- Designed to clear potential interference with roof rings and other objects
- Galvanized roof handrails
